The *a* forms of pa t normally represent, according to period and dialect, the OE *flēag*, *fleah*, and the *β* forms the OE pl. *flugon* The *γ* forms are transferred to the sing from the pl and the pa pple The origin of the *δ* form *flewe*, which now alone survives, is more difficult to account for, possibly it arose from a confusion with Flow (OE pa t *flēow*), with which this vb had in the 15th c come to coincide in the pa pple, cf however the somewhat similar phenomenon in the vb *slay*, pa t. *slew*, for which no parallel explanation can be given

With regard to the confusion between the verbs *fly* and *flee*, see Flee]

The Lat word was first used in sense 1 by Kepler (*Astron pars optica* IV 4, written in 1604), his reason for the choice of the name is not stated, but it is conjectured that the optical sense 2, 'burning point of a lens or mirror' (which is easily derived from the lit sense) must have been already in existence, this would account for Kepler's use, as the 'burning point' or 'focus' of a parabolic mirror is situate at the geometrical 'focus' of its curvature Sense 4 is from medical Latin In all senses cf. Fr. *foyer*.—L **focārium* f *focus*]

1 *Geom.* **a.** In plane geometry: One of the points from which the distances to any point of a given curve are connected by a linear relation

The fixed point is called a focus 1893 J W. Russell *Pure Geom.* VII 67 A focus of a conic is a point at which every two conjugate lines are perpendicular.

Fogger[1] (fɒ gəɹ). [Of somewhat obscure history, but prob. derived from *Fugger*, the surname of a renowned family of merchants and financiers of Augsburg in the 15th and 16th c.

The name passed as an appellative into several European langs. In German *Fugger, fucker, focker* (see Grimm) has had the senses 'monopolist, engrosser', 'usurer', 'man of great wealth', 'great merchant', and, in certain dialects (doubtless originally though ironical use), 'huckster, pedlar' Kilian 1598 has Flem. *focker* 'monopolist, universal dealer (*monopola, pantopola*), giving *fuggeren* and *fu[illegible]* as mod. Du. *[illegible]* 'a fabulous rich man Walloon *fouker* [illegible] contemptuous designations for a man of great wealth A 'petty Fugger' would mean one who on a small scale practises the dishonourable devices for gain popularly attributed to great financiers, it seems possible that the phrase 'petty fogger of the law', applied in this sense to some notorious person, may have caught the popular fancy, and so have given rise to the specialized use in sense 1. Sense 2 was already developed in Ger. dialects (see Grimm), though the channel by which it came to England is unknown. Cf. FOOKER.

Foil (foil), *sb.*[5] Forms 6–7 foile, foyle, 8 file, 7– foil [Of obscure origin

Usually regarded as f FOIL *v.*[1], and as denoting etymologically 'a sword with the point *foiled* or blunted' But the vb does not appear to have meant 'to blunt' the reading of the quarto in *Oth* I III 270, even if genuine, does not admit of this interpretation Another suggestion is that the phrase *at foils* originally belonged to FOIL *sb.*[2] in the sense of parrying, and that the name of the instrument was evolved from the phrase It is noteworthy that FOIN *sb* occurs in 17th c in the sense of *foil*, possibly (in spite of the want of evidence) this goes back to the 16th c, so that *foil* might be an etymologizing alteration of *foin*, after FOIN *v.*[1] That the word is, by some far-fetched association, a transferred use of FOIL *sb.*[1] a leaf (cf F *fleuret* fencing foil, lit 'floweret', the button being compared to a bud) is a possibility for which at present there is no evidence]

Cf FULL *v*

The Eng forms *foyle, foil*, and Sc. *fulȝe, fulyie*, would normally represent not OF *foler, fouler*, but *fouiller* (mod. F. *fouiller*), which has the quite different senses 'to dig, grub up, root (as a swine), search'. The cause of the irregularity has not been discovered a suggestion is that the sb *foults, foleiz* = FOIL *sb* 3 may have been confused with *fouillis* the 'rooting' of a swine, a mass of dirt and rubbish, and that this led to a confusion in the verb, but it is doubtful whether this would account for the facts]

Fold, var. form of FOUD

-fold, *suffix* (OE *-feald*, Northumb *-fald*, ME. *-fald, -fold*), corresponds to OFris , OS. *fald* (Du. *-voud*), OHG. *-falt* (MHG. *-valt*, mod Ger. *-falt*), ON. *-faldr* (Sw. *-fald*, Da *-fold*), Goth *-falps*, cognate with FOLD *v.*[1], and with the equivalent Gr. *-παλτος*, *-πλασιος*, also, more remotely, with Gr *-πλο-* in *ἁπλόος* single, *διπλόος* double (=L *duplus*), and probably with the L (*sim-, du-, tri-*) *plex* Like the Gr and L equivalents, the Teut suffix is appended to cardinal numerals (and adjs meaning 'many'), forming adjs. of which the primary sense is 'folded in two, three, four, etc,' or 'plaited of two, three, four, etc strands' (cf 'a threefold cord'), but which serve also and chiefly as arithmetical multiplicatives. The OE forms, *twi-, twio-, twefeald, þrifeald, fyðerfeald*, which retain the combining form of the cardinal inherited from OTeut., were superseded in early ME by new formations on the analogy of *fivefold*, etc , where the cardinal has the normal form

The adjs. were already in OE. used absol in the neut. (e g *þrifeald* threefold, three times as much) and as advbs (=doubly, tuply, etc), and these uses still continue In OE the adverbial notion was also expressed by phrases like *be fiffealdum, be manig fealdum*, in later Eng † *by fivefold, by manifold*. The introduction of the Romanic synonyms *double* and *treble* or *triple*, to which were afterwards added the adapted Latin *quadruple, quintuple*, etc , has considerably narrowed the use of the derivatives in *-fold*, indeed the latter seem to be (in many dialects) no longer current among illiterate people In educated use the strictly multiplicative sense survives chiefly in the adv and quasi-sb , and with reference to somewhat large numbers ('He has repaid me tenfold', 'that is a thousandfold worse'); the adjs express rather a plurality of things more or less different, than mere quantitative multiplication cf. 'a double charm' with 'a two-fold charm'

In ME a few new and unanalogical compounds were formed with the suffix, as *thuck-fold* (=frequent, -ly), *double-fold*, but these did not survive into the modern period Of the nonce-combinations, formed by attaching *-fold* to indefinite numerals, interrogatives, and the like, the following quots afford examples

†**Fo'lkland.** *Obs* exc *Hist* A term of OE law, designating land held by a certain kind of tenure; opposed to Bookland

As to the nature of the antithesis between folkland and bookland there have been many conjectures Since the publication of Allen's *Inquiry into the Growth of the Royal Prerogative*, 1830, the prevailing view has been that *folkland* was land belonging to the state, which the king or the witan might grant to a person for his life, but which did not descend to heirs, while *bookland* was land held by charter or deed But in the *Eng Hist Rev* VIII (1893) Prof Vinogradoff has forcibly argued that *folkland* was simply land heritable by *folkright* or common law, while the estate in *bookland* was conferred by charter or deed, and could be alienated freely

a 1000 *Laws Edgar* § 2 Oþþe on boc lande oþþe on folc-lande 1641 *Termes de la Ley* 54 This land was held with more easie and commodious conditions than Folkeland 1767 Blackstone *Comm* II. 91 Folk-land was held by no assurance in writing, but distributed among the common folk or people at the pleasure of the lord. 1830 J Allen *R Prerog.* (1849) 135 Folcland, as the word imports, was the land of the folk or people It was the property of the community. It might be occupied in common, or possessed in severalty; and, in the latter case, it was probably parcelled out to individuals in the folcgemôt But while it continued to be folcland, it could not be alienated in perpetuity, and therefore, on the expiration of the term for which it had been granted, it reverted to the community, and was again distributed by the same authority 1871 Freeman *Norm. Conq* (1876) IV xvii 24 The folkland, the common land of the nation, was now [1066 7] changed, fully and for ever, into *terra Regis*, the land of the King.

Follow (fǫ lou), *sb.* [f next verb]

1 The action of the verb FOLLOW

1870 HARDY & WARE *Mod. Hoyle*, Dominoes 93 It is sometimes an advantage to hold heavy dominoes, as they not unfrequently enable you to obtain what is called a good 'follow' 1889 *Spectator* 9 Nov 635/1 And hark ! the view-hollo ! 'Tis Mack in full follow

2. *Billiards* A stroke which causes the player's ball to roll on after the object-ball which it has set in motion. Called also *follow-stroke*, and *following stroke* Also, the impulse given to the ball by such a stroke.

1873 BENNETT & CAVENDISH *Billiards* 371 The reason for playing with side is, that, when the balls are so close, sufficient 'follow' cannot be got on 1881 H W. COLLENDER *Mod Billiards* 38 The Follow-Stroke *Ibid* 39 The 'follow' can also be executed with the cue delivered as far as one-fourth below centre

3 Follow on. *Cricket* The act of 'following on' (see FOLLOW *v.* 19 d); also applied to the innings itself Also simply *follow*

1881 *Standard* 14 June 3/8 A 'follow on' was necessary 1884 *Lillywhite's Cricket Ann* 60 With the follow saved there was no chance of completion of the game 1892 *Sat Rev* 9 July 33/1 In the follow on things altered very much

Follow (fǫ lou), *v* Forms. *a.* 1–2 folgian, 2–3 folgie(n, (folȝhi), folege(n, (folegi), 3 folien, folhen, 2–4 folȝe(n, (3 *Orm* follȝhenn, 4 *south.* uolȝe(n, uolȝy), 3–5 folew(en, (3 *south* uolewen, 4 follew(e), folwe(n, (4 follwe(n), folu(n, foluw(en, (3 *south* uoluwen), 4–6 folow(e, foloe, (5 folaw(e, folȝe, foloyn, 4–6 fowlow(e, 6 foolow(e), 6 *Sc* fallow, 4–7 followe, 4– follow *β.* 1–2 fylgan, fylıgan, fylgian, fylıan, 2–3 fulıen, (3 *south pa. t* vulede), 3–4 fulu(n, fligе(n, fliıȝ(en, fliıyh(en, fliıyh(en, felu(n, 4–5 fflow, fylow, felow, 5 filoe. [The two OE types, *folgian* (*o-* stem) and *fylgan* (*-jo-* stem), are, as is usual in similar pairs of conjugational variants, representatives of an OTeut vb. of the *-ēyan* class, cf OFris *folgia*, *folia*, *fulia*, OS *folgôn* (Du. *volgen*), OHG *folgên* (MHG. *volgen*, mod Ger. *folgen*), ON *fylgia* (Da *følge*, Sw *följa*), not recorded in Goth Beside these forms, several of the Teut. langs have synonymous and phonetically resembling words which are compounds of GANG and Go *vbs* ; OE has *fulgangan*, pa t *ful-ēode* (from *ēode*, serving as pa t. of *gân*) = OS. *fulgangan*, OHG *folle gân*. The most natural explanation of these parallel forms is that the apparently simple vb was originally a compound or a phrasal combination The first element occurs in OE. *fylstan*, *fullǣstan*, OHG *follesten* to help, succour, minister to (cf Goth *laistjan* to follow), OHG *follazohan* to assist, support (= OE. **fultēon*, whence *fultēam*, *fultum* assistance), Goth *fullafahjan* to worship, serve, minister to the needs of. In these cases the prefix seems to add to the sense of the simple vbs the notion of doing something by way of service to another (so that sense 3 of the present vb. is probably nearest to the original meaning). It is on formal grounds probable that the prefix is identical with FULL; its function in the above-cited instances is perh due to the circumstance that in some vbs compounded with it the primary sense of 'satisfying' developed into the cognate sense of 'ministering to', 'serving']

R Wendover says that when (in 1228) a castle which Hubert de Burgh had begun to build, near the Welsh border, had to be razed to the ground on account of a treaty concluded with the Welsh, much amusement was excited by the recollection that Hubert had given to the building on its foundation the name of 'Hubert's Folly' (*Stultitiam Huberti*) It was remarked that he had shown himself a true prophet Probably the word used by Hubert was F *folie*; the original meaning seems to have been not *stultitia*, but 'delight', 'favourite abode' Many houses in France still bear the name *La Folie*, and there is some evidence that 'the Folly' was as late as the present century used in some parts of England for a public pleasure-garden or the like

A. *sb.*

I. 1. One deficient in judgement or sense, one who acts or behaves stupidly, a silly person, a simpleton (In Biblical use applied to vicious or impious persons.)

The word has in mod. Eng. a much stronger sense than it had at an earlier period; it has now an implication of insulting contempt which does not in the same degree belong to any of its synonyms, or to the derivative *foolish*. Cf. F *sot*.

2. One who professionally counterfeits folly for the entertainment of others, a jester, clown.

The use of *for* as a conj. has not been found earlier than the 12th c. The older lang. supplied the place of the conj by locutions in which *for* prep. governed a neuter demonstrative pronoun followed by a relative particle · *for ðon ðe, for ðy ðe*, etc (see FOR-THON, FOR-THY). The conjunctional use of *for* = *for ðon ðe* may be explained either as an extension of the functions of the prep. to govern a noun-sentence, or as an ellipsis

In OE *for* and *fore* seem to have been used indiscriminately as preps, in ME they were gradually differentiated]

For-, *pref*[1] Also i fær-, 3 *Orm* forr-, 3-4 *south.* vor-, ver-, 4 fur-, 6-7 fore- [OE *for-, fær-* = OFris. *for-, far-*, OS. *for-, far-* (Du. *ver-*), OHG *far-, fir-, fer-* (MHG and mod G. *ver-*), ON. *for-* (Sw. *for-*, Da. *for-*); the ON. *fyrer-* (see Fore- *pref*) though formally distinct, often corresponds in use with this prefix The OE. form (like the other forms quoted) seems to represent (with obscured vowel due to absence of stress) the three OTeut. prefixes **fer-, fra-, fur-* (Goth *fair-, fra-, fair-*), which correspond formally to Gr. περι-, προ-, παρα-, representing various ablaut-grades of the Aryan root **pr-*. see For and Fore Functionally, the three prefixes do not seem to be clearly distinguished even in Gothic; but in most cases when a vb. with OE *for-* or Ger. *ver-* has a Goth equivalent, the prefix appears as *fra-*, which seems to have been orig its *stressed* form: cf. the two OE forms *fra·cod* and *forcit ð* (see Forcouth), which are believed to be accentual variants of the representative of pre-Teut. **progunto-*, despicable

From the predominant meaning of the root, it may be inferred that the primary notion expressed by the prefix is that of 'forward, forth' The various uses in the Teut langs. may be plausibly explained as originating from this, though the exact process of their development is in many points uncertain see Grimm's *Deutsches Wb* s v *ver-*. The vbs formed with this prefix often correspond in signification to Gr vbs formed with one or other of the cognate prefixes περι-, προ-, παρα-, and to Lat vbs with *per-* or *pro-*]

A prefix used to form verbs and adjs, primarily occurring in OE. words of Com. Teut. or WGer. origin, but employed in the formation of new words down to the beginning of the mod Eng. period; it is now entirely obsolete. Its various functions are enumerated below. The words here explained

and illustrated are all obsolete; the surviving words formed with the prefix, and those obsolete ones which require extended treatment, are given as main words in their alphabetical place.

10 Giving to an adj. the sense of an absolute superlative, 'very', 'extremely'; as *for-black, -cold, -dry, -dull, -faint, -great, -hoar, -old, -weary*, **fordead**, utterly speechless and still.

[OE had *for-wel*, very well, very, *for-ēaðe*, very easily, *for-oft*, very often, a stressed variant of the prefix is *frǽ-*, as *frǽmicel* 'eximius', *frǽfætt* 'præpinguis', *frǽofestitce* 'propere' Cf ON *for-littill*, very little, *for-mikill*, very great, etc, also the use of Sw *för*, Da. *for*, in the sense of 'too'. It is remarkable that nearly all Chaucer's examples of these compounds admit of being explained as instances of *for* prep governing an adj, thus in the quots below, '*for-blak*' may be taken as = 'for black (that it was)', 'for blackness', '*fordrye*, as whyt as chalk' may be read, omitting the comma, 'as white as chalk for dry (that it was)', 'on account of being so dry.' It is possible that Chaucer himself may have apprehended the combinations in this manner]

Fore-, *prefix* In OE the adv FORE (like its equivalent in various other Teut langs) was used as a prefix (1) to verbs, giving the additional sense of 'before' (either in time, position, order, or rank), and (2) to sbs. either forming designations of objects or parts of objects occupying a front position, or expressing anteriority in time (Cf OE *forecweðan*, Goth *fauraqiþan*, OHG *foraqueðan* to predict; OE *foregangan*, Goth *faurgaggan* to precede; OE *foretóð*, Ger *vorzahn* front tooth, etc). The prefix has through all stages of the language continued to be a living formative in all its uses The principal combinations are in this work treated as Main words in their alphabetical place, those which are of merely occasional use, or self explanatory, are enumerated in this article.

I In verbs, ppl adjs, agent-nouns and nouns of action (Stress on the verb)

1 With the sense 'in front', as in *foregird, -lie, -loft* (all *Obs.* or *arch*) Also in agent-nouns, as † *forespurrer*, FORERUNNER, FOREWALKER

1610 HOLLAND *Camden's Brit* I 791 Severus *foregirded and fensed Britain with a ditch from sea to sea. 1590 SPENSER *F Q* II. 2 = 'Beforehand', 'previously', 'in advance'

Formerly, esp in 16–17th c, the prefix was used with any vb to which it was desired to give this additional meaning The number of recorded combinations of this kind is therefore enormous, and only a selection of them can here be given Now, however, the use of the prefix, except in established combinations such as *foresee, foretell*, or in new combinations closely analogous to these, is felt to be somewhat archaistic or affected, in ordinary prose usage the meaning is expressed by the addition of an adverb, or (in verbs of obvious Lat or Rom. derivation) by the prefix *pre-*.

a In verbs, as *fore-accustom, -acquaint, -adapt, -admonish, -advertise, -advise, -allot, -answer, -assign, -balance, -bespeak, -bless, -calculate, -compose, -comprehend, -conclude, -condemn, -consider, -contrive, -count, -date, -declare, -decree, -design, -dispose, -devise, -engage, -exist, -expect, -express, -fear, -figure, -fit, -fix, -grasp, -haste, -instruct, -learn, -lend, -mean, -order, -paint, -picture, -plan, -poison, -promise, -reckon, -repent, -report, -request, -resemble, -scent, -season, -seize, -send, -shape, -shoe, -sang, -smell, -sound, -steep, -study, -suffer, -summon, -suspect, -threaten, -trace, -use, -utter, -vow, -ween, -weep, -weigh*

This use of *form* (Aristotle's μορφή or εἶδος) and *matter* (ὕλη) is a metaphorical extension of their popular use In ordinary speech, a portion of matter, stuff, or material, becomes a 'thing' by virtue of having a particular 'form' or shape; by altering the form, the matter remaining unchanged, we make a new 'thing' This language, primarily applied only to objects of sense, was in philosophical use extended to objects of thought every 'thing' or entity was viewed as consisting of two elements, its form by virtue of which it was different from, and its matter which it had in common with, others

D. Forth- in composition In OE and ME. the combinations of *forth* adv with vbs are hardly to be considered compound words; whether the adv. precedes or follows the vb depends on euphonic or other conditions which do not affect the sense. The agent-nouns, nouns of action, and ppl adjs. corresponding to these verbal locutions were formed by prefixing *forth* to the verbal noun or adj corresponding to the verb In mod.Eng compound vbs formed with *forth-* are rare; but *forth-* is often used as a prefix in the formation of nouns of agent and action, and ppl adjs corresponding to the verbal phrases (compound verbs in sense but not in form) in which the adv. follows the verb. More frequently, however, the agent-noun, etc is followed by the adv.; thus we have *a setter forth*, but **forthsetter* is app not recorded For the formation of ppl adjs. the prefix is the only means available; and in poetry from Pope onwards it is very common in pres pples

In some OE and ME words, *forth-* appears as a substitute for Forl- see Forthfather, Forthward, Forthwith 2

The more important compounds of *forth-* will be treated in their alphabetical place as Main words; those enumerated in this article are nonce-words or of rare occurrence.
